TECHÉOL

ROPE ACCESS TECHNICIAN

In order to pursue our growth objectives and maintain the excellence of our services, we are looking for **Rope Access Technicians (SPRAT or IRATA)** to join the ranks of our highly specialized wind energy team.

MAIN FUNCTIONS AND RESPONSIBILITIES

- Perform various types of work in suspension and/or in hard-to-reach areas;
- Safely carry out composite blade repairs using rope access;
- Perform blade inspections;
- Add and replace components;
- Secure, inspect and use various rope systems;
- Write complete reports of the work carried out;
- Comply with safety, quality and teamwork standards;
- All other related tasks.

REQUIRED QUALIFICATIONS

- Valid SPRAT or IRATA certification;
- Skills and interest for manual work;
- Experience in the use of composite materials an asset;
- Possess a valid and unrestricted class 5 driver's license, mandatory;
- Be mobile, ready and authorized to travel in Canada;
- Familiar with computer tools (computer, cell phone, etc.);
- Bilingualism, an asset.

ADDITIONAL SKILLS AND ABILITIES

- Being suspended on a rope for prolonged periods;
- Aptitude and interest for work requiring great manual dexterity;
- Climb ladders from 60 to 125 meters high;
- Work in confined spaces and at an altitude of more than 100 meters;
- Possess good vision (high field, depth perception, ability to distinguish colors);
- Ability to work alone or in a team.
